

Justin Bieber - Trust

Tom: Ab

(com acordes na forma de Capostrate na 1ª casa G)

G
If I believe in love
D
And you believe in love
Em
Then we can be in love somehow
C
If you want the best for us...
G
Like I want the best for us...
D
Then we gotta learn to trust right now

G
Don't let this effort go to waste
D
Put our all in it
Em
Don't want to be left with the questions, why!?
C
Let's be honest with ourselves
G
Did we really come this far
D
Just to watch it go down the drain?

G
Yeah, sometimes the heart what's invisible to the eye
D
All you gotta do is listen to your deepest feelings
Em
They don't ever lie
C
Well giving up is immature
G
There's so much more to live for
D
That I want to see us together now
Em C
Cause we're strong enough to endure, woah!

G
If I believe in love and you believe in love
D
Then we can be in love, somehow
Em
If you want the best for us
C
Like I want the best for us

Then we got to learn to trust right now

G
Growing pains come along with these changes
D
Some people get closer some people separate, yeah
Em
Don't think we should separate
C

And we both adore one another
G
You're a dream come true
D
We should start off brand new
Em
That's what we ought to do
C
Yeah

G
Yeah, sometimes the heart what's invisible to the eye
D
All you gotta do is listen to your deepest feelings
Em
They don't ever lie
C
Well giving up is immature
G
There's so much more to live for
D
That I want to see us together now
Em C
Cause we're strong enough to endure, wo-ah

G
If I believe in love and you believe in love
D
Then we can be in love somehow
Em
If you want the best for us
C
Like I want the best for us

Then we gotta learn to trust right now

G
Trust me right now
D
Yeah, yeah, yeah-ah-ah-ah
Em
Oh, we gotta learn to trust right now
C
Yeah, yeah, yeah-ah-ah-ah

Girl you gotta learn to trust me right now
Hey, hey, yeah

G
If I believe in love and you believe in love
D
Then we can be in love somehow
Em
If you want the best for us
C
I got the best for us
G
We gotta learn to trust
D
We gotta learn to trust
Em D
Yeah, woah woah!
