JVKE - Moon And Back

```
                tom:
                Bm
                                  Bm  A      D
Baby, I love you to the Moon and back
 Bm                    A
Stars talking like Mufasa
                      D
Know you got some scars, but I promise that I got you
 Bm                   A
Stars singing like Sinatra
                D
Fly me to the Moon, there ain't nothing that can stop you
            G                           D            Bm
Yeah, my thoughts get dark, but you shine so bright
            A
Yeah, you shine so bright
 Bm                        A
You got me singing out every night
                          Bm  A      D
Baby, I love you to the Moon and back
                          Bm  A      D
Baby, I love you to the Moon and back

Ain't nobody above you
          G           D
See the stars in the sky
        Bm            A
When I look in your eyes
           Bm  A      D
I'm on the Moon and back

Baby, I love you to the
Bm              A
Stars, making conversation
                  D
You connect the dots to my heart, constellation
Bm                      A
Car, something like a spaceship
                D
Look up at the roof, see the stars, yeah, we made it
            G                           D            Bm
Yeah, my thoughts get dark, but you shine so bright
            A
Yeah, you shine so bright
 Bm                        A
```

```
You got me singing out every night
                          Bm  A      D
Baby, I love you to the Moon and back
                          Bm  A      D
Baby, I love you to the Moon and back

Ain't nobody above you
          G           D
See the stars in the sky
        Bm            A
When I look in your eyes
           Bm  A      D
I'm on the Moon and back

Baby, I love you to the
                 Bm
Yeah, I could spend every night
  A
Staring at you, baby
Bm                    A
See the stars in your eyes

You know how to phase me
            G                   D
Like the Moon, you control the tides, yeah, you wavy
  G                     D
Malibu with you every night, going crazy
                                        Bm
I could be the one for you, don't need your sign
                                    A
You could be my better side, no Gemini
                      G                     D
And every time I touch you, I touch the sky
                          Bm A      D
Baby, I love you to the Moon and back
                          Bm A      D
Baby, I love you to the Moon and back

Ain't nobody above you
          G           D
See the stars in the sky
        Bm            A
When I look in your eyes
           Bm  A
I'm on the Moon and back
