

# JVKE - Moon And Back

tom:

Bm

Baby, I love you to the Moon and back  
Stars talking like Mufasa

Know you got some scars, but I promise that I got you  
Stars singing like Sinatra

Fly me to the Moon, there ain't nothing that can stop you  
Yeah, my thoughts get dark, but you shine so bright

Yeah, you shine so bright  
You got me singing out every night

Baby, I love you to the Moon and back  
Baby, I love you to the Moon and back

Ain't nobody above you  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and back

Baby, I love you to the  
Stars, making conversation

You connect the dots to my heart, constellation  
Car, something like a spaceship

Look up at the roof, see the stars, yeah, we made it  
Yeah, my thoughts get dark, but you shine so bright  
Yeah, you shine so bright

You got me singing out every night  
Baby, I love you to the Moon and back  
Baby, I love you to the Moon and back

Ain't nobody above you  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and back

Baby, I love you to the  
Yeah, I could spend every night  
Staring at you, baby  
See the stars in your eyes

You know how to phase me  
Like the Moon, you control the tides, yeah, you wavy  
Malibu with you every night, going crazy  
I could be the one for you, don't need your sign

You could be my better side, no Gemini  
And every time I touch you, I touch the sky  
Baby, I love you to the Moon and back  
Baby, I love you to the Moon and back

Ain't nobody above you  
See the stars in the sky  
When I look in your eyes  
I'm on the Moon and back
