I often think about you baby it makes me want to cry
 and I can't find the words to say for telling you goodbye.
 We've been fighting all the time you know our days are few
 Now I feel I'm strong enough to say these words to you.

Chorus

Goodbye..I'm leaving you darling, there's to much pain
 There's too much sorrow...goodbye I'm leaving you baby

Can't take the pain anymore goodbye I'm leaving

I'm tired of these lonely nights that you don't come right home

I stay up all worried about you and feeling all alone

I tried so hard to talk things over but you don't understand

Cause your mind is occupied with another man.

Chorus

Can't take the pain anymore goodbye I'm leaving

Can't take the pain anymore goodbye I'm leaving // // // //
