

Kabana - By My Side

Tom: Db

(com acordes na forma de Capostrate na 1ª casa C)

If you choose to be by my side

I promise you that I would never make you cry

I just want to introduce my soul to yours

Don't want to wait another life

Because language we can always learn

Distance we can always run

To be together one more time

I rather live my life alone

Then live without you in my home

Just tell me that you're mine

And I would never make you cry,

I'll make sure to get things right

And I'll be always by your side

If you show me how to fly

I could swim across the ocean just to show you that my love for you is real

I could climb the highest mountain just to grab a star, and give you as a gift

I've been thinking about you all night long

I dedicated you this song, to show you how I feel

Your love makes me feel strong, I don't wanna be by my own

You everything I see

And I would never make you cry,

I'll make sure to get things right

And I'll be always by your side

If you show me how to fly

And I would never make you cry,

I'll make sure to get things right

And I'll be always by your side

If you show me how to fly
