

# Kailasa Blues - And I Fly

tom:

**E**

I wake up in the morning

And early

Start to shake my mind **B7**

So I get high to some mountain **B7**

And jump

Aiming the star and the sky **E**

**E**

And I fly, and I fly, and I fly

So fast through space I fly **B7**

But now I cannot open my eyes

Because back I could fly **E**

**B7**

And I try, and I try, and I try

To fly faster and higher **E**

And I fly, and I fly, and I fly **B7**

Trying not to loose my mind **E**

**E**

At night, I'll go sleep

Just thinking

How better I've should be **B7**

And I see cristal clear

The size

Of the dumb

I've turn in to **E**

**E**

And I fly, and I fly, and I fly

So fast through space I fly **B7**

But now I cannot open my eyes

Because back I could fly **E**

**B7**

And I try, and I try, and I try

To fly faster and higher **E**

And I fly, and I fly, and I fly **B7**

Trying not to loose my mind **E**
