

Kailee Morgue - Medusa

tom:

Intro: B Abm Ebm

[Primeira Parte]

There's blood in the water

And they're coming to bring me down

What's hope with no savior?

Yeah there is no one in this ghost town

[Refrão]

She looked right through me

And I turned to stone

Medusa, Medusa

I've been here alone

[Segunda Parte]

And I crumble to pieces

My body, my weakness is on the floor

And the wind will blow and blow

And I won't be here no more

My wishing well has run dry

Stars are dying in sky

So I shed my blood and tears

I'll show no fear just to survive

[Refrão]

She looked right through me

I've been here alone

And I turned to stone

Oh Medusa, Medusa

I've been here alone

(B Abm Ebm)

(B Abm Ebm)

[Terceira Parte]

She says, "Mortal oh you've been chosen

You're beautiful but you're broken

So hold on to this moment

And fight until you're hopeless"

[Ponte]

There's secrets and riddles that live in these walls

There's ghosts of past heroes and I hear them call my name

We won't be tame

[Refrão]

Oh she looked right through me

And I turned to stone

Medusa, Medusa

I've been here alone

She looked right through me

And I turned to stone

Oh Medusa, Medusa

I've been here alone
