This is an awesome song that I had never heard before until someone requested to me to tab it out. Now I love the song.

In the recording, there is only one guitar until the solo, where one guitar does the background riff and the other one does the solo (there?s also the short harmonized solo, the only place Guitar 3 comes in). I?m going to tab it just like it?s recorded. But if you?re playing it in a band, just have both guitars do the same thing until the solo and then you can split them up, obviously.

COMPLICATED AND I STRONGLY RECOMMEND LOOKING AT THE SONG ORDER AT THE BOTTOM OF THE TAB SO YOU DON?T GET CONFUSED.
