Feels like I was born to love you, (oh yeah)

Like I was born to love you but I

I was scared to be

Sorry if I hurt anyone

But when I saw you with my red eye

The time itself had gone

Even though I was full of hope

Man it was hard and I could not stop

I made you leave

I made you leave

But see I always put my children first  
A love so pure that sometimes it hurts

That's how I live

Oh that's how I live

When your love shines

When our love shines (yeah)

And our love shines

Woah yeah

Feels like I was born to love you, (oh yeah)

Like I was born to love you but I

I was scared to be

Sorry if I hurt anyone

But when I saw you with my red eye

The time itself had gone

(From all angles, yeah)

The nations are all out

Yes I make all the people dance and shout

I make them sing

(Dance and shout)

(Dance, dance and shout)

Listen baby

Every day that we were apart

You were in my mind you were in my heart

What does this mean

What does this mean

When your love shines

When our love shines (yeah)

And our love shines

It feels like I was born to love you

Like I was born to love you but I

I was scared to be

Sorry if I hurt anyone

But when I saw you with my red eye

The time itself had gone

And time itself had gone
