

## Kate Nash - Nicest Thing

Tom: G

All I know is that you're so nice,  
You're the nicest thing I've seen.  
I wish that we could give it a go,  
See if we could be something.

I wish I was your favourite girl,  
I wish you thought I was the reason you are in the world.  
I wish my smile was your favorite kind of smile,  
I wish the way that I dressed was your favourite kind of style.

I wish you couldn't figure me out,  
But you always wanna know what I was about.  
I wish you'd hold my hand when I was upset,  
I wish you'd never forget the look on my face when we first

met.

I wish you had a favourite beauty spot that you loved  
secretly,  
'Cos it was on a hidden bit that nobody else could see.  
Basically, I wish that you loved me,  
I wish that you needed me,  
I wish that you knew when I said two sugars, actually I meant  
three.

I wish that without me your heart would break,  
I wish that without me you'd be spending the rest of your  
nights awake.  
I wish that without me you couldn't eat,  
I wish I was the last thing on your mind before you went to  
sleep.

All i know is that you're the nicest thing I've ever seen;  
I wish that we could see if we could be something
