

## **Kate Nash - Nicest Thing**

Tom: G

All I know is that you're so nice, You're the nicest thing I've seen. I wish that we could give it a go, See if we could be something.

I wish I was your favourite girl,

I wish you thought I was the reason you are in the world.

I wish my smile was your favorite kind of smile,

I wish the way that  $\tilde{\mathbf{I}}$  dressed was your favourite kind of style.

I wish you couldn't figure me out, But you always wanna know what I was about.

I wish you'd hold my hand when I was upset, I wish you'd never forget the look on my face when we first met.

I wish you had a favourite beauty spot that you loved secretly,

'Cos it was on a hidden bit that nobody else could see. Basically, I wish that you loved me,

I wish that you needed me,

I wish that you knew when I said two sugars, actually I meant three.

I wish that without me your heart would break,

I wish that without me you'd be spending the rest of your nights awake.

I wish that without me you couldn't eat,

I wish I was the last thing on your mind before you went to sleep.

All i know is that you're the nicest thing I've ever seen; I wish that we could see if we could be something
