

Katinguelê - Silêncio da Noite

tom:

Intro: A Dbm Bm E7

Eu sonhei com a brisa do amanhecer

Gotas de orvalho molharam você

Noite, céu tão claro

Vem pra me aquecer

É forte o desejo de abraçar você (uma cena)

Uma cena de novela me fez reviver

Num cartão à poesia traduzi você

Sentimento de raiz

Não nego lhe fazer feliz

Meu maior troféu da vida foi erguer você

Será que ainda existem

Mágoas no teu coração?

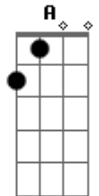

Se no silêncio dessa noite vaga a solidão

Nos meus olhos temporal

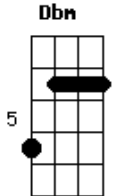

Molhando seus lábios carnis

Acordo, é de madrugada e nada é real
