

Katy Perry - Déjà Vu

Tom: C

I live off the echoes of your "I love you"s
 But I still feel the blows from all your "don't want to"s
 When you're drunk, you say I'm the one, then you wake up
 You suck my hope up in a vacuum

'Cause every day's the same
 Definition of insane
 I think we're running on a loop

Deja vu
 So tell me something new
 Figure out the Rubik's Cube
 I think we're running on a loop

Deja vu
 Your words are like Chinese water torture
 And there's no finish line, always one more corner
 Yeah, they slither like a centipede

Why do you keep me at the end of a rope that keeps getting shorter?
 'Cause every day's the same
 Definition of insane

I think we're running on a loop
 Deja vu
 So tell me something new
 Figure out the Rubik's Cube
 I think we're running on a loop
 Deja vu
 (' Em C Am)
 (' Em C Am)

'Cause every day's the same
 Definition of insane
 I think we're running on a loop
 Deja vu

So tell me something new
 Figure out the Rubik's Cube
 I think we're running on a loop
 Deja vu
 'Cause every day's the same
