

# Katy Perry - Déjà Vu

Tom: C

I live off the echoes of your "I love you"s  
 But I still feel the blows from all your "don't want to"s  
 When you're drunk, you say I'm the one, then you wake up  
 You suck my hope up in a vacuum

'Cause every day's the same  
 Definition of insane  
 I think we're running on a loop

Deja vu  
 So tell me something new  
 Figure out the Rubik's Cube  
 I think we're running on a loop

Deja vu  
 Your words are like Chinese water torture  
 And there's no finish line, always one more corner  
 Yeah, they slither like a centipede

Why do you keep me at the end of a rope that keeps getting shorter?

'Cause every day's the same  
 Definition of insane

I think we're running on a loop  
 Deja vu  
 So tell me something new  
 Figure out the Rubik's Cube  
 I think we're running on a loop  
 Deja vu  
 (' Em C Am )  
 (' Em C Am )

'Cause every day's the same  
 Definition of insane  
 I think we're running on a loop  
 Deja vu

So tell me something new  
 Figure out the Rubik's Cube  
 I think we're running on a loop  
 Deja vu  
 'Cause every day's the same  
 Definition of insane  
 I think we're running on a loop  
 Deja vu  
 Deja vu
