

Katy Perry - This Moment

Tom: G

Can you tell me, who called the race?
 Can anyone stay in one place?
 And when you get to the finish line
 Will you wish for more time?

But see, one day, one day you will
 But maybe one day you will find
 That you just can't push rewind

All we have is this moment
 Tomorrow's unspoken
 Yesterday is history

So why don't you be here with me?

All we have is this moment
 To put our love into motion
 Yesterday is history

So why don't you be here with me?
 Be here with me now

Do you ever think that, we're just chasing our tails?
 Like life is one big fast treadmill
 And we pop what is prescribed
 If it gets us first prize

But you know who I, who I think will win
 Are the ones that love loving

Are the ones that take the time

All we have is this moment
 Tomorrow's unspoken
 Yesterday is history

So why don't you be here with me?

All we have is this moment
 To put our love into motion
 Yesterday is history

So why don't you be here with me?

Be here with me now
 Be here with me now

'Cause the future is right now, right in front on you
 Don't let the clock, the clock tell you what to do
 A future is right now, I'm in front of you
 Baby don't blink and miss

This moment

Tomorrow's unspoken
 Yesterday is history

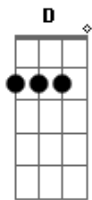

So why don't you be here with me?

All we have is this moment
 To put our love into motion
 Yesterday is history

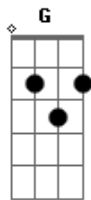

So why don't you be here with me?

Be here with me now
