

Keane - I Need Your Love

Tom: D

I see your face like a vision of god
 I shiver and shake and I'm lost in the flood
 Nothing else matters, the world disappears
 I can't breathe and I can't think until I taste your kiss
 Give me some signal, say that you understand
 The meanest of scrap baby dropped from your hand
 This hunger I feel is sure to be satisfied
 I know nothing else is gonna ease this ache inside
 I need your love
 I need your love, I need your love, I need your love
 Can't give it up, I need your love
 Love me just a little and I will give you my life
 Throw your arms around me, shelter me like a child
 Be my direction, throw myself at your feet
 Give me something in return for what you've done to me

I need your love
 I need your love, I need your love, I need your love
 Can't give it up, I need your love
 Let glory come
 Let riches rain upon my head, these golden drugs
 They're not enough, I need your love
 I need your love
 I need your love, I need your love, I need your love
 Can't give it up
 Just give me something in return for what you've done to me
 I need your love
 I need your love, I need your love, I need your love
 Can't get enough, I need your love
 Let glory come
 Let riches rain upon my head, these golden drugs
 They're not enough, I need your love
 I need your love
 I need your love, I need your love, I need your love
 Can't give it up, I need your love
