

Keane - On a day like today

Tom: F

IMPORTANTE: no início, a música é uma bateria leve com um acompanhamento que pode ser seguido conforme a cifra a baixo. Espero que gostem !

Obs: Essa música é a 10ª faixa do HOPES AND FEARS na versão europeia !!!

On a day like today
 I looked at you and I
 Saw something in the way
 You stared into the sky

I saw you... were sick
 And tired of my wrong turns
 If you only knew the way I feel
 I'd really love to tell you

But I
 could never seem to say the things I needed to
 On a day like today no other words would do

I saw you... were sick
 And tired of my wrong turns
 If you only knew the way I feel
 I'd really love to tell you

But I can never find the words to say and I don't know why
 I can't find the words to say and I don't know why
 I can't find the words to say and I don't know why
 I can't find the words to say and I don't know why
