 Let's take off together  
 And then we can live wherever we land

BRIDGE:

-----  
 Girl i need you  
 Don't know what i would do  
 Will you see the story through

 And i need somewhere to hide  
 The time goes by and your still on my side  
 Intro: chords till the end...

-----  
 Waiting  
 Searching  
 Turning over  
 Running round in circles  
 And i've worn myself out  
 Hoping that we'll always be together
