

Keane - Time To Go

Tom: A

Now, during a scene
 Seen it all before
 We drink, we drink a little much
 Drink a little more
 To shake off the nerves and
 To take off the edge and
 Now is there any way back home?

Seen it all before and
 I know the signs
 We drink, drink a little much
 To stimulate the mind
 Now it's two hours to go
 Insult everyone that we know
 Now it's such a long way home

Maybe it's time to go?
 Maybe it's time we went?
 You're making a spectacle
 Maybe it's time we left?

I don't wanna spoil your night
 I don't wanna hurt your pride
 But maybe it's time to go
 Maybe it's time?

(Continua....)

Now eating from your hand
 Laugh at every line
 Soon losing track of you
 Losing track of time
 Now it's dead on the dancefloor
 And nobody's laughing anymore
 Have I become a tiresome bore?

Maybe it's time to go?
 Maybe it's time we went?
 You're making a spectacle
 Maybe it's time we left?

I don't wanna spoil your night
 I don't wanna hurt your pride
 But maybe it's time to go
 Maybe it's time to go?

Where there's nowhere to hide
 From what's broken inside
 A faultline rips right open
 Under the wide wide ocean's tide
 Under the wide wide ocean

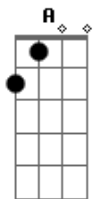

(Refrão)

Maybe it's time to go?
 Maybe it's time we went?
 You're making a spectacle
 Maybe it's time we left?

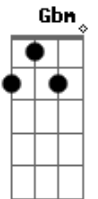

I don't wanna spoil your night
 I don't wanna hurt your pride
 But maybe it's time to fly
 Maybe it's time?

Maybe it's time to go?
 Maybe it's time?
