

# Keaton Henson - Alright

Tom: F

Intro: F Bb C  
F Bb C

I know the West was won this way  
But God forgive the heartless way we let  
It all burn down  
I know, I know you're off on tour  
Godspeed my love  
I'll not be bored with all  
The mess here, now  
I'll allow  
My heart to get over you now  
Let yours take a generous bow  
I'll be fine  
You'll be alright  
Come and see me in the morning  
I'll be in the sunrise  
Hoping that it's rays don't  
Burn a hole in my eyes  
You know me, I worry  
Could always use some pity  
Scared to do a session  
If it's in the city  
You and I are monsters  
We'll not find another  
Cannot be together  
Lest we eat each other

Don't make me leave

It's been about a month  
And I am eating badly  
Still don't cry  
But I keep meaning to  
I hear the crowds adore you so  
But I'm still here, I hope you know  
Don't talk to them about me  
Obviously  
My wounds are open to see  
But don't take them seriously  
I'll be fine  
And you're more than alright  
Come and meet me in the trenches  
I'll be taking cover  
You can load the guns, and I'll hide behind the others  
Always been a coward  
You can ask my friends  
I hide inside for hours  
Always had intense eyes  
I think I am sick but never can be certain  
Still call up my mother  
Hiding behind curtains  
Don't make me go  
Don't make me go outside  
God knows what out there lies  
I'm hoping I don't die  
After you
