

Keegan Allen - Million Miles Away

Acordes

```
In silver laced Sunrise
          G
Abstracts understood
As you get me through the days
When I could love you fine
From a million miles away
And I could love you fine
   С
From a million miles away
No matter where you are
Next to me, near or far
                                 Am7
When I'm wishing you great things
No matter where I'm
You will have us again
Doing most of those great things
CGD GAm7GCAm7GCD
0ooooooh
I will be there all the time
To catch you when you fall
When you're with me baby
Well I'm standing twice as tal
It is who you are to me
And that could never change
When I would love you more than more
From a million, billion, trillion miles away
G D G
I will love you best when we are
Face to face
```
