Kelly Clarkson - I Don't Think About You

Tom: G
Intro: G Bm Am C

[Verso 1]

```
             G
When you're lost in the moment
     Bm
You can't see where you goin'
           Am
I didn't know who I could trust
          C
So I put all my faith in us
         G
Oh, you tore me to pieces
       Bm
Turned my strength into weakness
          Am
I didn't want it all to fall apart
        C
So I decided just to play the part

     C                    G
But honestly, I'd do it all again
        C
Puttin' up with all the bullshit
             Cm
It made me strong enough to do this
```

[Refrão]

```
                    G                              Bm
It used to bother me, thought I could never leave
                                 Am
After all that I've been through, nothin' left to prove
G           C
No, no, no, I don't think about you
                   G
Weighing down on me
               Bm
I lost my sanity
                        Am
And now that we are through, nothin' left to lose
 G          C
No, no, no, I don't think about you
```

[Verso 2]

```
G
 I feel freedom where I stand now
       Bm
And I feel proud of who I am now
         Am
Yeah, I learned a lot along the way
            C
I love the woman that I became

       C
I was patient, but not anymore
          G
It's back in my hands
          C
And you swore I'd never do it
               Cm
But it's your time to face the music
```

[Refrão]

```
                    G                              Bm
It used to bother me, thought I could never leave
                                 Am
After all that I've been through, nothin' left to prove
 G          C
No, no, no, I don't think about you
                   G
Weighing down on me
               Bm
I lost my sanity
                        Am
And now that we are through, nothin' left to lose
 G          C
No, no, no, I don't think about you
```

[Verso 3]

```
C
It was hard to hold on
                    Em
Days and nights I thought I'd never make it at all
                    D
Couldn't make it at all

Now I stand tall
                  A                          Dbm
Feeling like myself again, no worries at all

Breathe
 C                                              G
No one can stop me from livin' this moment for me

                  Bm
I found my heartbeat
                           Am
After all that I've been through
    C
No, I don't think about you
```

[Refrão]

```
                    G                              Bm
It used to bother me, thought I could never leave
                                 Am
After all that I've been through, nothin' left to prove
 G          C
No, no, no, I don't think about you
                   G
Weighing down on me
               Bm
I lost my sanity
                        Am
And now that we are through, nothin' left to lose
 G          C
No, no, no, I don't think about you

                   G
I don't think about you (no)
              Bm
(No, no, no) No, no, no
                    Am
(Not anymore) Not anymore
 G          C               Cm
No, no, no, I don't think about you
```
