

# Kelly Clarkson - I Don't Think About You

Tom: G  
Intro: G Bm Am C

[Verso 1]

When you're lost in the moment  
You can't see where you goin'  
I didn't know who I could trust  
So I put all my faith in us  
Oh, you tore me to pieces  
Turned my strength into weakness  
I didn't want it all to fall apart  
So I decided just to play the part

But honestly, I'd do it all again  
Puttin' up with all the bullshit  
It made me strong enough to do this

[Refrão]

It used to bother me, thought I could never leave  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you  
Weighing down on me  
I lost my sanity  
And now that we are through, nothin' left to lose  
No, no, no, I don't think about you

[Verso 2]

I feel freedom where I stand now  
And I feel proud of who I am now  
Yeah, I learned a lot along the way  
I love the woman that I became  
I was patient, but not anymore  
It's back in my hands  
And you swore I'd never do it  
But it's your time to face the music

[Refrão]

It used to bother me, thought I could never leave  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you  
Weighing down on me  
I lost my sanity  
And now that we are through, nothin' left to lose  
No, no, no, I don't think about you

[Verso 3]

It was hard to hold on  
Days and nights I thought I'd never make it at all  
Couldn't make it at all  
Now I stand tall  
Feeling like myself again, no worries at all

Breathe

No one can stop me from livin' this moment for me  
I found my heartbeat  
After all that I've been through  
No, I don't think about you

[Refrão]

It used to bother me, thought I could never leave  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you  
Weighing down on me  
I lost my sanity  
And now that we are through, nothin' left to lose  
No, no, no, I don't think about you  
I don't think about you (no)  
(No, no, no) No, no, no  
(Not anymore) Not anymore  
No, no, no, I don't think about you
