

## **Kelly Clarkson - Maybe**

```
Intro: Em G Em G
I'm strong but I break
I'm stubborn and I make plenty of mistakes
Yeah, I'm hard
And life with me is never easy
        Em
To figure out, to love
I'm jaded but i'm so lovely
All you have to do is hold me
And you know, and you see just
How sweet it can be
If you trust me,
love me, let me, maybe
Maybe...
Someday when we're at the same place
Or we're on the same road when it's okay to hold my hand
Without feeling lost without all these excuses
When it's just because you love me
                                                     G A
You let me you need me maybe maybe
All you have to do is hold me
And to know and to see just how sweet it can be
If you trust me love me let me baby maybe
I'm confusing as hell yeah I'm north and south
```

## **Acordes**
