Kelsea Ballerini - Stilettos

```
                                tom:
                   E (forma dos acordes no tom de C )
Capostraste na 4ª casa

           Am                                  F
Go ahead and say what you're gonna say
                C               G
Give it to me straight, don't sugarcoat it
Am                        F
Go ahead and do what you're gonna do
                C            G
We're already done, I already know it
Am                              F
So you can take your new blonde out to get your drink on
C                G
For everyone to see
        Am       F    C     G
But you don't get to get to me

                       C
I wear my pain like stilettos
                                 G
As bad as it may hurt, no, you'll never know
                                     Am
I keep walking with my head up, putting on a show
       F
And fronting like nothing is wrong
                           C
I talk the talk like I'm a tough girl
                                  G
'Cause there's barely room for weakness in a rough world
                        Am
That keeps saying you were never enough, girl,
                   F
Yeah, when you get burned, you learn to be strong
                       C
I wear my pain like stilettos
Am                       F
So I ain't staying down, tonight I'm going out
         C               G
Yeah, even if I have to fake it
Am                       F
A little black dress to cover my mess
       C                     G
So you won't know my heart is breaking
Am                       F
Pull myself together from the fallout of forever
        C            G
For everyone to see
```

```
           Am        F      C      G
No, you don't get to get to me
                               C
I wear my pain like stilettos
                                 G
As bad as it may hurt, no, you'll never know
                                     Am
I keep walking with my head up, putting on a show
       F
And fronting like nothing is wrong
                           C
I talk the talk like I'm a tough girl
                                  G
'Cause there's barely room for weakness in a rough world
                        Am
That keeps saying you were never enough, girl,
                   F
Yeah, when you get burned, you learn to be strong
                  C                       G
I wear my pain like stilettos
                   Am               F
Yeah, I wear my pain like stilettos
Am  F  C  G
Oh, oh, whoa, oh, whoa
Whoa, oh, whoa, oh, whoa
Whoa, oh, whoa, oh, whoa
Oh, whoa, oh, whoa, oh

                           C
I wear my pain like stilettos
                                 G
As bad as it may hurt, no, you'll never know
                                     Am
I keep walking with my head up, putting on a show
       F
And fronting like nothing is wrong
                           C
I talk the talk like I'm a tough girl
                                  G
'Cause there's barely room for weakness in a rough world
                        Am
That keeps saying you were never enough, girl,
                   F
Yeah, when you get burned, you learn to be strong
                  C            G
I wear my pain like stilettos
                       Am       F
I wear my pain like stilettos
                        C
I wear my pain like stilettos
```
