

# Kenny Chesney - Setting The World On Fire

Tom: C

[Verso 1]

Yeah we got drunk on la cienega boulevard  
 Taking pictures of people we thought were stars  
 It's easy to give in to your heart  
 When your drunk on la cienega boulevard

[Pre-Refrão]

When the song coming out of the speakers  
 Was the band that you had on your t-shirt  
 We were screaming cause all of the streets were empty and you  
 Kissed me

[Refrão]

And we were up all night and we were feeling so good  
 Yeah we got a little higher than we probably should  
 We were in a hotel singing in the hallway lights  
 We were striking the matches right down to the ashes  
 Setting the world on fire  
 Setting the world on fire

[Verse 2]

I wrote I love you in lipstick on the mirror  
 We were shouting out the window like they could hear us at the pier  
 Said do you think we'll live forever as we killed another beer  
 And you wrote I love you in lipstick on the mirror

[Pre-Refrão]

And we were laughing until we were breathless  
 Never felt anything so reckless  
 We were all lit up and restless and coming alive

[Refrão]

And we were up all night and we were feeling so good  
 Yeah we got a little higher than we probably should  
 We were in a hotel singing in the hallway lights  
 We were striking the matches right down to the ashes  
 Setting the world on fire  
 Setting the world on fire oh yeah yeah

[Refrão]

And we were up all night and we were feeling so good  
 Yeah we got a little higher than we probably should  
 We were in a hotel singing in the hallway lights

 Setting the world on fire  
 Setting the world on fire

[Final]

Wor-rl'd on fire  
 We were setting the wor-rl'd on fire  
 We were setting the wor-rl'd on fire
