

Kenny Chesney - What I Need To do

Tom: Ab

(com acordes na forma de G)

Capo 1st fret

Intro: G G C G G C

I keep telling my self this is the right thing to do
 I was wasting her time waitin on dreams that just werent
 comming true
 And this ole highway seems to understand
 leading me off to somewhere where no one knows my name
 got the windows rolled down got the radio up
 doing all I can to get my mind of us

Chorus:

what I need to do is turn this car around
 drive as fast as I can until I see the lights of our hometown
 and run to her take her in my arms

let her see how sorry I am well it shouldnt be soo hard
 but I drive..... on... and on... and on....

(repeat intro)

87 more miles brings me into Baton Rouge
 Theres a buddy of mine that says he might find some work that
 I can do
 Or maybe head up north to Knoxville Tennessee
 I know my baby sister's got a couch where I can sleep
 Now the suns going down on my broken heart.
 Lord I gotta get back before I go too far

(repeat chorus)

Knowing what I need to do....
 Girl Im comming home to you....
 Knowing what I need to do
 Knowing what I need to do

Acordes
