

Keshi - Say

tom:

Ab Bb

Say, say it

You do this all the time

No sense in holding back tonight

Ab Bb

Can't contain it

Even if I tried

Get lost in the moment

Get lost with you, but I

Ab Bb

Can't read your mind

When all you do is dance on the line

Ab Bb

Can't read your mind

All I need is a sign

Ab

Say the word

I know what you're thinking but just say it first

Been waiting all this time for you to

Take your turn

In my arms for a second

Baby say the word and I'll be yours

(Bb)

The look you're giving me gives you away

You finally found the high that you've been chasing

Only one more choice you gotta make

I need you to tell me cus I

Ab Bb

Can't read your mind

All I need is a sign

Ab

Say the word

I know what you're thinking but just say it first

Been waiting all this time for you to

Take your turn

In my arms for a second

Baby say the word and I'll be yours

D G Cm

So close to your body can you feel it

Come and spend the night with someone new

Talking with your hands but do you mean it

Baby all you gotta do is

Ab

Say the word

I know what you're thinking but just say it first

Been waiting all this time for you to

Take your turn

In my arms for a second

Baby say the word and I'll be yours

Ab Bb

Say the word

Say the word

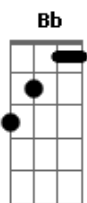

Say the word

Say the word

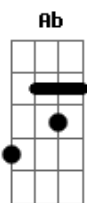

Say the word
