

## **Keshi - Understand**

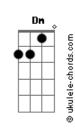

```
tom:
                C
Never thought that I'd find
       Em
That the one in my life would be so near
And now you're here
          Em
I got you, you got me
When it's us, babe, you make me feel complete
You're all I need
    Fm
Ooh, ooh
Maybe we can try it if you let me
Take you by the hand
You're the only one who understands
So I guess that it's time
I asked you to be mine for all my days
```
