

Khai Dreams - Through And Through

Tom: Ab

m
I only think about it in the night time
Always in the night time
Up too late lying on the floor
Thinking I've been here for so long
Just a little too long
Think I need to get out of the door
But I've never been a brave one
Always was a tame one
Always double checked all that I knew
But that safety is a danger
Yeah there's only one way out it's through

[Refrão]

Oh through and through
Oh through and through I'll find my way to you
Though I'll admit it may take me some time
Oh through and through
Oh through and through

I will be there for you even if we may seek a separate light

[Pre-Refrão]

And I don't know what I've been waiting for
It feels like I'm always losing my way
I'm doubting every step I take
I know that everything finds its place
Although I wish I knew where to
I guess I'll have to see it through

[Refrão]

Oh through and through
Oh through and through I'll find my way to you
Though I'll admit it may take me some time
Oh through and through
Oh through and through
I will be there for you even if we may seek a separate light
