

## Khalid - Cold Blooded

```
Tom: C
                                                                I see it in your eyes
          Am7 G
                                                                You're no good for me
Cold blooded, cold blooded
                                                                            Dm7
                                                                And love is blind
The way you've been treating me is getting out of hand
                                                                Ooh, and cold blooded, cold blooded
And you walk around like you're so innocent
                         Am7
                                                                You want what I'm giving up
I gave you my heart and it melted in your arms
                                                                Dm7
                                                                But my love is not enough
This isn't a place that I belong
                                                                Cold blooded, cold blooded
I feel your fear
                                                                And I can?t feel my fingertips
                   Am7
                                                                But you feel better when we touch
Surrounded by your skin
                                    D<sub>m</sub>7
                                                                F7M
You feel my heartbeat vibrate so violent
                                                                Hmmm
Inside of your head
                                                                Fill me up, keep me hot
I see it in your eyes
                                                                Use me up of all I've got
You're no good for me
           Dm7
                                                                I feel your fear
And love is blind
                                                                                   Am7
                                                                Surrounded by your skin
Ooh, and cold blooded, cold blooded
                                                                You feel my heartbeat vibrate so violent
                                                                Inside of your head
You want what I'm giving up
But my love is not enough
                                                                I see it in your eyes
                                                                         G
Cold blooded, cold blooded
                                                                You're no good for me
                                                                           Dm7
And I can?t feel my fingertips
                                                                And love is blind
But you feel better when we touch
                                                                Ooh, and cold blooded, cold blooded
I lost my sight and you're leading me on
                                                                You want what I'm giving up
Is it 'cause you're used to guys always doing you wrong?
                                                                But my love is not enough
Do you really love me?
                                                                Cold blooded, cold blooded
Or is it just revenge?
                                                                And I can?t feel my fingertips
                                                                  Dm7
                                                                But you feel better when we touch
Lately you don't seem so genuine
I feel your fear
Surrounded by your skin
                                                                Fill me up, keep me hot
You feel my heartbeat vibrate so violent
                                                                Use me up of all I've got
                                                                                         Am7 G Dm7
Inside of your head
                                                                Cold blooded, cold blooded
                                                                                         Am7 G Dm7
                                                                Cold blooded, cold blooded
```
