

Khalid - Lets Go

Tom: D

(com acordes na forma de C)

Capotraste na 2ª casa

Intro: C G D Em

Can you feel this energy?
 This is the start of something great
 We might... be a little late... hey
 But at least we're on our way
 You got too much time to waste
 Focusing on what people say
 They might not like that we've arrived
 But we're here to stay

Leave your sorrow on the table
 Pick up your worries and throw them out the window
 You don't gotta let your friends know
 There's so much trouble to get into

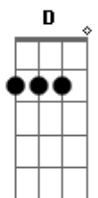

Let's go, let go
 C Em Dm G
 C Em Dm G

Let's go, let go
 I got a blacked out Chevrolet
 You don't have a destination
 Traveling where the wind will take us
 That might be from place to place
 Oh shit, I just graduated
 I don't have any obligations
 So let's have a little fun
 Go 'head and drop all the relations

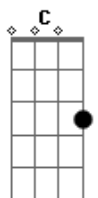

Leave your sorrow on the table
 Pick up your worries and throw them out the window
 You don't gotta let your friends know
 There's so much trouble to get into

Let's go, let go
 C Em Dm G
 C Em Dm G
 So let's go, let's go
 C Em Dm G
 Let go, let go
