

# Kiana Ledé - I Choose you

Tom: D

Bm G  
Your smile, your voice  
D A  
Creeps inside my heart with everything you do  
Bm G  
I have no choice  
D A  
Loving you is all that I know how to do  
Bm G  
Even when you knew it was heavy  
You was still holding me up  
D A  
Even when you were in pieces  
You would hold me together  
Bm G  
Even though I was your baby  
You always saw the fight me  
D A  
When no one there was there to hold my back  
Don't you know that I choose you over anybody else  
D A  
When you're not around it's just bad for my health  
Bm G  
I'm good on my own, but with you I'm something else  
D A  
You're telling me to choose up, but I already choose you  
I choose you-you, I choose you-you  
D A  
They say it's choose up season, finally I got a reason  
Bm G  
Yeah, and I want you-you, I choose you-you  
D A  
Everybody needs someone to hold it down  
Bm  
I choose you  
G D A  
Your soul breathes into my body like a cloud of smoke
