PM.....

Intro: - (Riff 1)

(baixo e bateria sozinhos)  
 Been under fire sixteen years, just waitin' for his time  
 to come  
 He fought the lies, fought back the tears, can't wait to  
 hear that starting gun

(Riff 2)  
 There ain't nobody gonna step on his dreams  
 So he held his hands high and screamed

(Riff 3)  
 Get me out of this rock and roll hell, take me far away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, I need to get away  
 Get me out of this rock and roll hell

(Riff 4)  
 He's on the edge, he can feel it in his heart  
 This time the pressure's really on

He's gonna fight it, might even steal a guitar  
 This time tomorrow he'll be gone

(Riff 2)  
 There ain't nobody gonna tell him what to do  
 Think he's a little like me and you

(Riff 3)  
 Get me out of this rock and roll hell, take me far away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, I need to get away  
 Get me out of this rock and roll hell

(Solo & Riff 1)

(Riff 4)  
 He's on the run, won't stand for second place, but his turn  
 may never come  
 He's not a victim, you can see it in his face  
 But he can't see what he's become

(Riff 2)  
 Well, he wants it bad, but he wants no charity  
 He seems to think it's his destiny

(Riff 3)  
 Get me out of this rock and roll hell, I need to get away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, take me far away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, I need to get away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, take me far away  
 Get me out of this rock and roll hell  
 Get me out of this rock and roll hell, I need to get away  
 Get me out of this rock and roll hell

## Acordes
