Been under fire sixteen years, just waitin' for his time
He fought the lies, fought back the tears, can't wait to
hearthat starting gun
There ain't nobody gonna step on his dreams
So he held his hands high and screamed
(Riff 3)
Get me out of this rock and roll hell, take me far away
Get me out of this rock and roll hell
Get me out of this rock and roll hell, I need to get away
Get me out of this rock and roll hell
He's on the edge, he can feel it in his heart
This time the pressure's really on
```

He's gonna fight it, might even steal a guitar This time tomorrow he'll be gone (Riff 2) There ain't nobody gonna tell him what to do Think he's a little like me and you Get me out of this rock and roll hell, take me far away Get me out of this rock and roll hell Get me out of this rock and roll hell, I need to get away Get me out of this rock and roll hell (Solo & Riff 1) (Riff 4) He's on the run, won't stand for second place, but his turn mavnever come He's not a victim, you can see it in his face But he can't see what he's become (Riff 2) Well, he wants it bad, but he wants no charity He seems to think it's his destiny (Riff 3) Get me out of this rock and roll hell, I need to get away Get me out of this rock and roll hell Get me out of this rock and roll hell, take me far away Get me out of this rock and roll hell Get me out of this rock and roll hell, I need to get away Get me out of this rock and roll hell Get me out of this rock and roll hell, take me far away Get me out of this rock and roll hell Get me out of this rock and roll hell, I need to get away Get me out of this rock and roll hell
