

# Kora Leith - Favourite Song

Tom: B

m  
 Everything's cold once the wind blows  
 You're the only warmth that my body knows  
 Everything's bitter in my mouth  
 You're the only sweetness that came around  
 Everything I used to lack I don't want no more  
 You're the only thing I still adore

You are all I want  
 All I need  
 When the night's young  
 You are all I want  
 You're all I breathe  
 You're my favourite song

Everything's harder than it used to be  
 But you're the embodiment of simplicity  
 Life just seems to be stuck on repeat  
 Then you came along and shuffled me  
 You're the breeze and all I see, you're the waves crashing  
 I don't do too much but show my passion

You're my passion  
 You are all I want  
 All I need  
 When the night's young  
 You are all I want  
 You're all I breathe  
 You're my favourite song  
 The calm before the storm  
 The light before dawn  
 You're my favourite song  
 You're the lightning in the sky  
 You're the perfect lullaby  
 You're my favourite song

You are all I want  
 All I need  
 When the night's young  
 You are all I want  
 You're all I breathe  
 You're my favourite song
