

Kris Kristofferson - From Here To Forever

tom:

Cool shadows fall through the moonlight
 Soft as the breeze through your hair
 And the smile on your face

When you're sleeping
 Is the answer to anyone's prayer

Fill your heart for the mornin' tomorrow
 You've still got a long way to grow
 And the love that you're dreamin'
 Will guide you
 And live like a song in your soul

And darlin' if we're not together
 There's one thing i want you to know
 I'll love you from here to forever
 And be there wherever you go

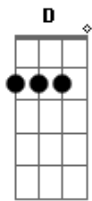

(G D A D)

There are so many feelings to follow
 So many chances to take
 So many ways you can stumble
 Someday your heart's gonna break

Darlin' take all the time
 That you're given
 Be all you know you can be
 And if you need a reason for livin'
 Do it for love and for me

And darlin' if we're not together
 There's one thing i want you to know
 I'll love you from here to forever
 And be there wherever you go
 I will love you from here to forever
 And be there wherever you go
