Nessa música é utilizado um aparelho (braçadeira) que faz pestana na terceira casa (pra quem não sabe, é um aparelho de metal que aperta as cordas do violão como se fosse uma pestana mecânica), portanto, se você simplesmente tocar essa música sem utilizar o aparelho ela ficará 1 tom e meio abaixo! Mas pode ser tocada sem nenhum problema! Portanto as cifras não estão erradas, é só o tom do seu violão que não está certo!
