

Kyber Krystals - The Sound (This Is Who We Are)

```
Tom: C
  С
Times flies when you're by my side
Got butterflies in my belly now ow ow
Take me back to the place I found
You were lost staring at the ground ow ow
So open your eyes
            Em7
Our own paradise is here
       Am7
By your side, by your side
And what if we fall
             Em7
We are not afraid to lose control
          Am7
We own the night, we own the night
(abafado, palhetadas para baixo)
And this is who we are
We are meant to touch the stars
Supposed to know the truth
That lies inside of you
We're faces in the crowd
Our voices are so loud
And it's a matter of time
Until we all become the sound
           ( C Em7 Am7 )
I can't help
