

Kygo Feat. Dean Lewis - Never Really Loved Me

tom:
Capostrate na 1ª casa

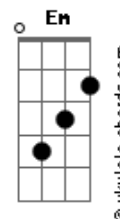

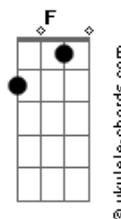

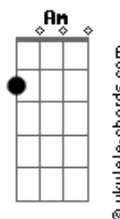

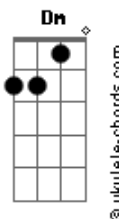

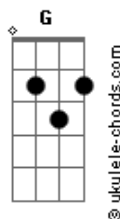

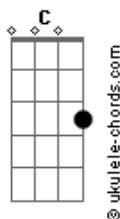

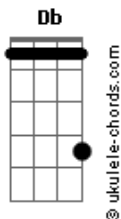

You say you only ever wanted love
As my hand falls from your face
Your tears are showing me you're giving up
And you start to walk away

I said: Hold on, darling, it's harder to breathe
As I reach for your hand while you're turning to leave
Now I know that it's over between you and me
I hope that you find all that you want

I wasted moments that I can't get back
For something special that I thought we had
It took too long but now I know
I guess you never really loved me at all
(F C G Am)

There's so much good that lies in front of me

Acordes

Sometimes the start is the end
Just like the summer steals the memory
So it's warming me up again

I said: Hold on, darling, it's harder to breathe
As I reach for your hand while you're turning to leave
Now I know that it's over between you and me
I hope that you find all that you want

I wasted moments that I can't get back
For something special that I thought we had
It took too long but now I know
I guess you never really loved me at all

I shoulda listened when my mother said
All that my heart would do is wreck my head
It took too long but now I know
I guess you never really loved me at all

[Final] F C G Am
