

Kygo - Freeze

tom:
 Capotraste na 4ª casa

We out on the roof top of your car under the sky
 I'll tell you the truth crossing my heart, hoping to die
 I don't know nobody, like you know nobody, yeh oh ah ah ah
 I'm watching a star, million light-years away
 I wish I could pause, and hit replay
 'Cause summers go so fast
 Darlin' can we freeze?
 Let me save this perfect memory
 Remember how it feels like flying in the dark?
 Like I must be awake inside a dream
 Darlin' can we freeze?
 'Cause even though you're right here next to m?
 Apart of me still feels like nothing ev?r lasts
 Like I'm already missin' you and me
 Oh, oh can we freeze?
 Darlin' can we freeze?
 Oh, oh can we freeze?
 Darlin' can we freeze?

Oh, oh can we freeze?
 Why am I like this? Why does my mind go racing?
 This beautiful silence but I feel like I'm always waiting
 Like it's just a matter of time, till' it shatters
 Darlin' can we freeze?
 Let me save this perfect memory
 Remember how it feels like flying in the dark?
 Like I must be awake inside a dream
 Darlin' can we freeze?
 'Cause even though you're right here next to me
 Apart of me still feels like nothing ever lasts
 Like I'm already missin' you and me
 Oh, oh can we freeze?
