

# Kygo - Sunrise

Tom: G

Wake me up, my eyes are heavy  
 And I need some sun, one hit and I am ready  
 For whatever comes  
 Nothing can keep me from you  
 Nothing can keep me from you  
 Something about, the things you told me  
 Oh, I brought 'em down  
 Yeah, I took on with me to the place we found  
 And I'll be waiting for you  
 Yeah, I'll be waiting for you  
 For you

I follow the moon  
 From the dark to the break of dawn  
 We let it loose  
 Smoking weed and writing songs

Meet me at the sunrise, at the sunrise

I can get you so high, so high  
 Burning up the daylight, in the daylight  
 Meet me at the sunrise, sunrise

Called my name cause I'm so lost  
 And I don't know this place  
 And I got this feeling that I just can shake  
 Nothing can keep me from you  
 Nothing can keep me from you

Oh, oh  
 I follow the moon  
 From the dark to the break of dawn  
 We let it loose  
 Smoking weed and writing songs

Meet me at the sunrise, at the sunrise  
 I can get you so high, so high  
 Burning up the daylight, in the daylight  
 Meet me at the sunrise, sunrise
