

Lady Antebellum - Hurt

tom:

G

[Verso 1]

If my memory gets the best of me
 Then I'll always find an excuse
 Yeah, I'll make believe, re-write history
 Ignite a spark I can't undo
 It always starts out simple like a conversation
 Before I know it, I'm lost in your illumination

[Refrão]

If you catch my eye across a crowded room
 I'll fall into the atmosphere surrounding you
 If you pull me close just to disappear
 The chances are I'd wait for you a thousand years
 If you light the fuse you know that I'll react
 If you're reckless with your love just to take it back
 You could hurt somebody like that

[Verso 2]

You're a carnival on a summer night
 Gone too soon every time
 Yeah, it's beautiful how you burn so bright

In the waste land you leave behind

[Refrão]

If you catch my eye across a crowded room
 I'll fall into the atmosphere surrounding you
 If you pull me close just to disappear
 The chances are I'd wait for you a thousand years
 If you light the fuse you know that I'll react
 If you're reckless with your love just to take it back
 You could hurt somebody like that

(F Em Am F)

[Ponte]

If you call me up at 3AM
 I'll run to the rescue time and time and time again

[Refrão]

If you pull me close just to disappear
 The chances are I'd wait for you a thousand years
 If you light the fuse you know that I'll react
 If you're reckless with your love just to take it back
 You could hurt somebody like that
 You could hurt somebody like that
 You could hurt somebody like that
