(intro 4x) D Em7 G

You feel like you're falling backwards
 Like you're slippin' through the cracks
 Like no one would even notice
 If you left this town and never came back
 You walk outside and all you see is rain
 You look inside and all you feel is pain
 And you can't see it now

But down the road the sun is shining
 In every cloud there's a silver lining
 Just keep holding on (just keep holding on)
 And every heartache makes you stronger
 But it won't be much longer
 You'll find love, you'll find peace
 And the you you're meant to be
 I know right now that's not the way you feel
 But one day you will

You wake up every morning and ask yourself
 What am I doing here anyway
 With the weight of all those disappointments
 Whispering in your ear
 You're just barely hanging by a thread

You wanna scream but your down to your last breath
 And you don't know it yet

But down the road the sun is shining
 In every cloud there's a silver lining
 Just keep holding on (just keep holding on)
 And every heartache makes you stronger
 But it won't be much longer
 You'll find love, you'll find peace
 And the you you're meant to be
 I know right now that's not the way you feel
 But one day you will

Find the strength to rise above
 You will
 Find just what you're made of, you're made of

Down the road the sun is shining
 In every cloud there's a silver lining
 Just keep holding on (just keep holding on)
 And every heartache makes you stronger
 But it won't be much longer
 You'll find love, you'll find peace
 And the you you're meant to be
 I know right now that's not the way you feel
 I know right now that's not the way you feel
 But one day you will
 One day you will (Oh one day you will)
