

# Lady Antebellum - Perfect Day

Tom: E

(verse 1)

Went walking through town just the other day with nothing' much to do

As the sun came breakin' down through the clouds, I never seen the sky so blue

I saw a cajun man with a red guitar singing on the side of the street

I threw a handful of change in his beat up case and said play me a country beat and it sounded like

(verse 2)

Met up with some friends outside of town, we were headed towards the lake

I hopped into the back of a jacked up jeep and felt the wind upon my face

We got to the spot and the sun was hot, everybody was feelin' fine

So we jumped on in for a midday swim and then we lost all track of time

(refrão)

It was the perfect day, what I'd give if I could find a way to stay, lost in this moment

Now, ain't worried about tomorrow

When you're busy livin' in a perfect day (E B A)

(verse 3)

As the moon came out and the fire burned, everybody was singing' along

To some Ramblin' Man a little Curtis Loew and all them feel good songs

We danced all night without a care, no place we'd rather be

Cause these are the days we'll talk about, when we lived so wild and free

(refrão)

(coda)

We were sittin' in the sand as he grabbed my hand and then leaned in for a kiss

I couldn't help but think with the stars above it don't get much better than this

(outro)

It was the perfect day, what I'd give if I could find a way to stay, lost in this moment

Now, ain't worried about tomorrow

When you're busy livin, feels like dreamin', slowly drifting, through this perfect day.

Na na na na... (2x)
