Your lips keep trying to speak

Well I had this dream once
D G C Em D
I held it in my hands

G C
She was the purest beauty
Em D
But not the common kind

She had a way about her

And for a moment
D G C Em D
You made the world stand still
Em C G C Em D
Yeah we owned the night

G C
You had me dim the lights
Em D
You danced just like a child

The wine spilled on your dress

And all you did was smile

I hold it in my mind

When the summer rolls around

And the sun starts sinking down

I still remember you

Oh, I remember you

And I wonder where you are

Are you looking at those same stars again?

D
Do you remember when?

G C
We woke under a blanket

Em D
All tangled up in skin

G C
Not knowing in that moment

Em D
We'd never speak again

C
But it was perfect

I never will forget
