

# Lady Gaga - Let Love Down

Tom: C

(intro) G Em

I can't remember when  
 He looked at me and cried  
 Said something broke inside of you  
 Were my best friend  
 Whatever come our way  
 You know I'm your gal 'till the e-e-end  
 When I finally go away  
 I know you'll look for me one day

When you let love down  
 Oh you let love down  
 I don't have to remind you  
 But you know that I'm around  
 When you let love down  
 Oh you let me down  
 Get a little love down  
 Let it down oh oh

I can't remember when  
 You put your hands on mine  
 But couldn't play in time when we  
 We're not together  
 Just sing a little song  
 Blueberry kisses foreve-e-er  
 When I finally go away

I know you'll look for me one day  
 Oh yeah it's so sad  
 When you let love down  
 Oh you let love down  
 I don't have to remind you  
 But you know that I'm around  
 When you let love down  
 Oh you let me down  
 Get a little love down  
 Let it down oh oh

Oh oh  
 Don't let me down  
 Oh don't let me down  
 Oh oh

When you let love down  
 Oh you let love down  
 I don't have to remind you  
 But you know that I'm around  
 When you let love down  
 Oh you let me down  
 Don't let me down  
 Let it down  
 Can't let love down  
 Let it down  
 Won't let love down  
 Let it down
