Am
I don't belong in the world
That's what it is
Something separates me from other people
Everywhere I turn...
There's something blocking my escape

Am
It took thirteen beaches
To find one empty
Em D
But finally it's mine
Am
With dripping peaches
G
I'm camera ready
Em D
Almost all the time

C
But I still get lonely
B7 Em
And baby only then
A
Do I let myself recline?
C B7
Can I let go?
Em
And let your memory dance
D
In the ballroom of my mind
Am
Across the county line

Am
It hurts to love you
G
But I still love you
Em D
It's just the way I feel
Am
And I'd be lying
G
If I kept hiding
Em D
The fact that I can't deal
Am G
And that I've been dying (yeah)
Em D
For something real
Am G Em D

That I've been dying for something real

Am
It took thirteen beaches
G
To find one empty
Em D
But finally I'm fine
Am
Past Ventura
G
And lenses plenty
Em D
In the white sunshine

C B7
But you can still find me
Em
If you ask nicely
A
Underneath the pines
C B7
With the daisies
Em
Feeling hazy
D
In the ballroom of my mind
Am
Across the county line

Am
It hurts to love you
G
But I still love you
Em D
It's just the way I feel
Am
And I'd be lying
