

# Lana Del Rey - Angels Forever

Tom: G

Intro: G D G Bm

Is the sun in your eyes, easy rider?  
 Do the flame colored skies light your fire?

We are heavy metal lions, they will never understand  
 The kind of people you or I am, bow your heads and take your hands

They were angels forever, forever angels  
 They were angels forever, forever angels

Does the ocean inspire, easy rider?  
 Do the stars and the wind take you higher?  
 You are California proud, you are angels of the night

Rock 'n' roll guardians now, the last keepers of the light

They were angels forever, forever angels  
 They were angels forever, forever angels

Paradise is a hell colored flame sky  
 Is it nice to feel free and wild?  
 Paradise is the game of do or die  
 I just ride, ride, ride

They were angels forever, forever angels  
 They were angels forever, forever angels  
 They were angels forever, forever angels  
 They were angels forever, forever angels
