Intro: Bb Fm Eb Gb

Bb Fm
They say I'm wasting time they said that I'm no good
'Cause Imma love my life not doing what I should
Call me poison ivy 'cause I'm far from good
Pretty from afar like a dark star

Bb Fm
They say I'm dangerous they think I'm really bad
I'm just making up for what I never had
Go out at night whenever I feel sad
Oh this drive by love got me crazy like a drug

Bb Fm
I wear my wig lipstick got my make up on
Stumble into trouble siren with a sad song
They all got girlfriends but i'm the one that they want
Miss America with the blue mascara on

Bb Fm
I spent my whole life driving in cars with boys
Riding 'round town drinking in the white noise
Used to talk about where we've been and where we go.
Now we know baby now we know
Spent my whole life wasted in bars with boys
Playing rock n roll dancing in the loud noise
Used to talk about where we've been and where we go.
Now we know baby now we know
